Other Smaller Principal Contractor Projects

- Decommission SPS669 and 721 - Decommission odour wet wells, ERS and inlet manholes, valve pits, chemical dosing cabinet, ancillaries (such as water supply, cabinets, air vent), rising mains, drop structures, hardstand areas and fence (2021, Yarra Valley Water, Supervised by John Torre).
- Colman Reserve, Warrandyte – 327m of DN63 pressure sewer, live sewer connection, manhole epoxy coating, two property connections, 2 flushing points, 3 isolation valves and 1 air valve (2018, Yarra Valley Water, Supervised by Glenn Thompson).
- 44 Station Rd, Warburton – 100m of DN150 gravity sewer, live sewer connection, three maintenance holes and 3 gravity connections (2018, Yarra Valley Water, Supervised by Glenn Thompson).
- 22 Main Rd, Monbulk – 63m of DN90 pressure sewer, connection to existing pressure sewer, flushing point and 1 road crossing property connection (2017, Yarra Valley Water, Supervised by Steve Avramovski).
- 29 The Boulevard – Relocate DN100 property connection and live sewer works (2017, Yarra Valley Water, Supervised by Steve Avramovski).
- 82 Station St, Coldstream – 20m of DN63 pressure sewer, connect to existing pressure sewer, flushing point and 1 property connection (2016, Yarra Valley Water, Supervised by Rob Razzi).
- 7, 9, 11 Church St, Emerald – 63m of DN150 gravity sewer, live sewer connection, manhole (3m deep) and 3 gravity connections (2016, Yarra Valley Water, Supervised by Rob Razzi).
- 12 Memorial Ave, Emerald – Install pressure sewer road crossing property connection and service prove manhole/rising main (2016, Yarra Valley Water, Supervised by Rob Razzi).
- 63-65 Williams Rd, Park Orchards – 100m of DN63 PE pressure sewer, 1 flushing point, 2 pressure connections (road crossings) and connection to pressure sewer (2016, Yarra Valley Water, Supervised by Rob Razzi).
- Lot 1/25 O'Herns Rd, Somerton – Decommission pressure sewer property connection and install new pressure sewer road crossing property connection (2016, Yarra Valley Water, Supervised by Glenn Thompson).
- 28-50 Kurrak Rd, Yarrambat – 355m of DN63 PE pressure sewer, flushing points, isolation and air valves, road crossings, property connections and live sewer works (2015, T.Puzska and Associates/Yarra Valley Water, Supervised by Steve Avramovski).
- 124-127 Belgrave-Gembrook Rd, Selby – 90m of DN50/DN63 PE pressure sewer, flushing point, isolation valve, property connections and live sewer works (2015, Yarra Valley Water, Supervised by Michael Patena).
- 32-36 Main Road, Monbulk – 77m of DN50 pressure sewer, flushing point, isolation valve, property connection and live sewer works (2014, Yarra Valley Water, Supervised by Michael Patena).
- Decommission SPS645 South Morang – Decommission odour control facility, RPZD, water cabinet, manholes, wet well, valve and water pit, emergency relief structure, detention tank and live sewer works (2013, Yarra Valley Water, Supervised by Steve Avramovski).
- Emerald Secondary College Gravity Extension – 300m of DN150 PVC gravity sewer, maintenance structures, pressure sewer property connection and live sewer works (2011, Yarra Valley Water, Supervised by Glenn Thompson).
- Church St Sewer Collapse – 50m of DN150 PVC sewer (on main road with tram tracks), two maintenance structures, property connections and live sewer works (2011, Yarra Valley Water, Supervised by Leigh Sinclair).
- Monbulk Community Centre – 200m of DN63 PE pressure sewer, flushing points and property connections (2010, Yarra Valley Water, Supervised by Leigh Sinclair).
